### **RECRUITMENT OF NEW BENEFICIARIES**

During the year 2020, the Foundation Board continued to focus on strengthening the dialogue with the new generation of interpreters to encourage them to join CPIC, by continuing to distribute the **brochure\* presenting the Fund** electronically, by strengthening contact with interpreting schools and attendance at interpreters' meetings. In addition, it continued a discussion on expanding the means of communication in view of the generational renewal of beneficiaries.

### **IMPORTANCE OF REGULAR SAVINGS**

The Board of the Foundation also wishes to emphasise **the importance of regular savings**, based on contributions from international institutions and organisations as well as personal payments, and **invested over the long term in occupational pension provision. The example shows that regular savings are rewarded in the long term at the time of retirement, a message that should encourage young interpreters to join CPIC from their first contract. See the following link on the CPIC website for an example of long-term investment of occupational pension assets:** <http://www.cpic.ch/constitution-de-votre-avoir-de-prevoyance/>

### **PERSONAL PAYMENTS**

The Foundation Council reminds beneficiaries that, during years when beneficiaries do not receive any employer contributions, CPIC membership is maintained and the capital continues to grow. Beneficiaries may make personal contributions of up to CHF 40,000 or EUR 40,000 per year at any time in order to increase their retirement savings.

### **ELECTIONS**

The Assembly re-elected one of its members, Anne-Marie ARBAJI-SFEIR, and elected a new member to the Foundation Council, Françoise LANDGRAG, to replace Dominique BAZ. The General Assembly also accepted the proposal of the Foundation Board to renew the mandate of Jacques-André SCHNEIDER as President for a new statutory period.
